To be the ultimate destination for education, training and research in pharmaceutical sciences and allied areas and thereby, Cater to the health needs of the people at large.

To develop core competency in pharmaceutical sector and contribute in building leaders, administrators and personnel who can take up responsibilities as pharmaceutical science professionals, appropriate for community, institutions and industries on health and management related fields.

- To have a comprehensive, multi-disciplinary institute for learning and research with holistic approach in pharmaceutical and sciences
- To provide infrastructure and research facilities for the dissemination of the advanced knowledge to the students in various branches of pharmaceutical sciences through innovative teaching-learning processes with inter-disciplinary approach such that they propagate their wisdom to acquire all kinds of knowledge and generate new ideas
- To educate and train manpower for the development of the country and establish linkages with industries for the promotion of science and technology through several health-related courses in MLT, GNM and X-Ray Technology
- To cultivate the spirit of embracing internationalism/ diversity and competitiveness/ competition amongst students such that novel and creative ideas are harnessed, leading to unique discoveries and inventions, for the advantage of society at large

- Curricular Designing: Unique Courses with Global Thinking & Local Needs
- Teaching Learning Process: Pedagogy with Participative Learning
- Research & Innovation: Research Excellence with Innovation & Incubation

- Infrastructure: Ambience for Rigorous Learning
- Student Progression: Encaging the Dreams by Job Creation
- Governance: Leadership without Power & Power without Hierarchy
- Best Practices: Integration of Yoga, Sports & Physiotherapy education for holistic development (स्वास्थ्य त्रिवेणी; योग, भौतिक-चिकित्सा एवं औषध विज्ञान)
Reaching the community for Health Awareness (लोकाः समस्ताः सुखिनो भवन्तु)

FROM THE VICE CHANCELLOR'S DESK

Welcome to the **DELHI PHARMACEUTICAL SCIENCES & RESEARCH UNIVERSITY** (Transforming as per the call of NEP-2020 as the Multidisciplinary Centre of Learning)

With the NEP-2020 being implemented, the only and pride first pharmacy University of India Delhi Pharmaceutical Sciences and Research University (DPSRU), in addition to pharmacy courses for new drug discovery and innovations started programs in diagnostics, health services and management at the society level. Now DPSRU in addition to D. Pharm. M. Pharm. BPT, B.Sc. (Sports), MBA, HHM, MPH In 2020-21, have started PG Diploma in Clinical research with Apollo Hospital Research & Education (AHRE), Executive M. Pharm. (Drug Regulatory Science); MBA (International Trade Management); BBA (Healthcare); B. Pharm. (Ayurveda); PG Diploma in Plant Tissue Culture; M.Sc. (Artificial Intelligence in Medicine); DMLT; BMLT; and new Skill development courses in Medicine Management and many others like B.Sc. (Hons) Biomedical Science, MPT in Cardiovascular and Pulmonary, Sports Medicine and Paediatrics .

The academic session 2022-23 has been vibrant and full of landmarks achievements. Consistently for the second time and three times in last 5 years the First All India rank in Graduate Pharmacy Aptitude Test (GPAT) was from DPSRU with over 70 candidates qualified. On 22nd December we had the 5th Convocation of our University with Dr. Balaram Bhargava, DG, ICMR and Head Department of Cardiology, AIIMS, New Delhi as the Chief Guest.

DPSRU with the word 'Research' in the name of the university itself, has created the state-of-the-art infrastructure research facilities. With the legacy of having unique Ocular Pharmacology lab, Clinical research, Herbal Technology and Nanotechnology Centers, it has come up with BioNest Bioincubator Center of DBT-BIRAC, Precision Pharmacy & Medicine Center of DKDF, Govt. of Delhi and Centre for Advanced Formulation Technologies of DSIR-CRTDS, Govt. of India and DST-FIST, New Delhi. This has enabled the University to establish linkages with industries for the promotion of science and currently, the University has more than 40 active MoUs with National Government institutions and Pharma Industry. The University has developed collaborations and tie-ups with countries like the UK, West Indies, Portugal, Philippines, Malaysia, Thailand and even China. Many of the faculties are not only in top 2% scientists of the world list but also are representing the University in bodies like AYUSH and its subdivisions like CCRAS, CCRUM, CCRAH, Indian Pharmacopoeial Commission, CDSCO, DST-SERB, ICMR, NIPER and many institutions of excellence.

DPSRU continues to have a focus for research and innovation. Our faculty members published over 300 research papers and could get patents granted as well as filed in good number. In addition to academic activities, several workshops, seminars and guest lectures were organized. Our University continues to have strong tie ups with industry. Innovative products are being developed with companies. Research, innovation and incubation have been a priority of our university. More than 25 new dynamic faculty members have been appointed on a regular basis. While the first batch of MPT is coming out this year from the University it is exciting to note that our School of Physiotherapy has been included in 10 best Physiotherapy institutes in India.

Our University has been thriving for the quality education and welfare of the students. We have now about 150 Ph.D. students registered and more importantly one third come with Govt scholarships from agencies like ICMR, DST, CSIR etc and an equal number getting collaboration and aid with research centres like DRDO, THISTI, IPC and pharma industries. Arranging for the Guest lectures, appointments of Adjunct Professors, Organizing Workshops, National and International conference and now the webinars is a routine in our University. Through webinars our University has developed collaborations and tie-ups with countries like the UK, West Indies, Portugal, Philippines, Malaysia, Thailand and even China. This year we have prepared VISION 2030.

With prayers to the almighty to keep our mentors of the university, teaching and non-teaching staff and alumni I acknowledge their constant support. I welcome the aspirants to have a distinct career in the field of health sciences including pharmacy and pharmaceutical sciences.

Prof. Ramesh K Goyal,
Vice Chancellor

DPSRU (WCSC) Certificate Courses*

The Government of NCT, Delhi initiated the development of "World Class Skill Centre" (WCSC) in Delhi to address the shortage of skilled manpower. The setting-up of this World Class Skill Centre in Delhi Pharmaceutical Sciences and Research University (DPSRU), New Delhi in the sector "**Health and Wellness**" fulfilling its objective and create the skilled people that is the valued assets and sustain the economic growth and social development of the country. DPSRU-WCSC centre provided better levels of skills that might be adjusted more effectively to the challenges and opportunities of globalization in terms of various types of certificates courses that are multi-disciplinary course in their respective field.

1. Medicine Management
2. Beauty Wellness Consultant
3. Sports Assessment & Yoga Application

The courses offered by the DPSRU-WCSC centre evolved as per the requirements of the industry and fitted with recent facilities and full-fill the market demand. The adopted methodology was self-reliant learning with a focus on peer learning. The course was conducted in the English language. Assistance was provided to all trainees for placement in respective sector and start-ups for gainful employment. The infrastructures present in DPSRU- WCSC centre is based on the pattern of recent concepts "A Global Leader for Innovations in Technical Education" that based on a holistic "Hands- on, Minds-on, Hearts-on". The centre equipped with the latest projectors smart classroom, high-level experimental labs with the latest Training and research equipment and much more mandatory to meet the environment and to achieve their best.

Eligibility Criteria: -

- **Medicine Management:** Pass in 12th or equivalent from a recognized board in India having Science Stream with a minimum of 40% in aggregate.
- **Beauty Wellness Consultant:** Pass in 12th or equivalent from a recognized board in India with any stream with a minimum of 40% in aggregate.

***A separate notification will be published for admission.**

- **Sports Assessment & Yoga Application:** Pass in 12th or equivalent from a recognized board in India with any stream with a minimum of 40% in aggregate.
- **Nature:** Regular and full time
- **Duration:** One Year (1st and 2nd Semester) certificate course
- **Age:** No bar
- **Total Seats:** 40 (Forty only) in each certificate course and reservation policy as per state governments rules.

University is currently running 6-month certificate course. Students can get admission for course starting from July 2023 or January 2024.

Candidate has to submit application form with requisite fee of Rs. 4000/- (including examination fee). A maximum of 30 students can be enrolled at a time. Admissions will be given on the first-cum-first basis.

Next Generation Sequencing and Its Applications

Duration: 3 months (only on weekends): 20-24 days (4 hrs / day)

Intake: 25 for 1st batch

Proposed course fee: Rs. 15000/- to Rs. 20000/-

Who can be interested for this course

This course is aimed at students' / research scholars/ industry people interested in learning about the NGS technology and its applications.

Eligibility: BMLT / B. Pharm. / B. Sc. (Life Sciences)/ B. Tech. (Biotech)

BRIEF ABOUT NEWLY INTRODUCED PROGRAMS

DPSRU has introduced new courses in the University as per the approval of Academic Council and Board of Governors of the University.

The following are the programmes started from the academic session 2021-22:

- Diploma in Medical Laboratory Technology (DMLT)
- Bachelor of Medical Laboratory Technology (BMLT)
- Bachelor of Business Administration (BBA) Healthcare
- Bachelor of Pharmacy (*Ayurved*) – [B. Pharm. (Ayu.)]
- Executive M. Pharm. in Drug Regulatory Science
- Master of Physiotherapy (MPT) in Sports Medicine
- M. Sc. (Artificial Intelligence in Medicine)
- MBA – International Trade Management

The following programs have been introduced from the academic session 2022-23:

- B. Sc. (Hons.) Biomedical Science
- MPT in Cardiovascular and Pulmonary
- MPT in Paediatrics
- MBA-Healthcare & Hospital Management

1. Diploma in Medical Laboratory Technology (DMLT)

Diploma in Medical Laboratory Technology or DMLT is a 2-year diploma programme which provide skill-oriented training and develop skilled professionals ready to work in hospitals, laboratories, public and private health facilities and industrial laboratories.

The Program aims to fill the gap between the demand for skilled manpower and the supply of industry- ready candidates in the paramedical healthcare sector.

Program Highlights:

- The Program demonstrate technical skills, social behaviour, and professional awareness imperative upon a laboratory technician.
- Enable students to Perform routine clinical laboratory procedures within acceptable quality control parameters in haematology, biochemistry, pathology and microbiology.
- The course provides knowledge of diagnostic instruments and procedures and impart required proficiency in handling those instruments to enable these students to work in various laboratory settings.
- Prepares the students for career options ranging from the entry level Junior Medical laboratory Technologist to Chief Technical Officer.

Duration of Course: 2 years (Including Compulsory internship in accredited laboratory/ hospital of 3 months duration).

Pattern: Semester system (4 semesters)

Student Intake: 60

2. Bachelor of Medical Laboratory Technology (BMLT)

Bachelor of Medical Laboratory Technology (BMLT) is a 3-year undergraduate programme designed to impart experiential learning to the students in order to develop a desired workforce to combat ever increasing demand of medical laboratory technologists in the healthcare sector. The program aims to provide the students with sufficient knowledge and skills to carry out routine laboratory diagnostic procedures and some sophisticated laboratory diagnostic procedures.

Program Highlights:

- The programme is designed with specific inputs from industry experts, based on the

latest technologies available and in practice, for individuals interested in entering the field of clinical laboratory science.

- The programme will train the students to become Medical Laboratory Technologists who assist physicians in labs and are responsible for performing laboratory investigations relating to diagnosis, treatment of diseases by performing various tests and recording results.
- The programme also deals with new advances in Management of Laboratories and instrumentation. Regular clinical Laboratory posting included as a part of curriculum to inculcate practical skills and practice techniques on diagnostic investigations, laboratory responsibility and supervision.
- Prepares the students for career options ranging from the direct level Medical Laboratory technologists to Chief Technical Officer.

Duration of Course: 3 years (Including Compulsory internship in accredited laboratory/hospital of 6 months duration)

Pattern: Semester system (6 semesters)

Student Intake: 60

3. BBA-Healthcare

BBA in healthcare is a 3-year bachelor degree program that equip students for focused care to enhance healthcare services. The program is aimed to produce healthcare graduates of highest academic, technical and practical skills. The curriculum designed in conjunction with academia and health care industry experts provides the opportunities for the students to master new skills and explore varied perspectives in public health care management.

Program Highlights:

- Program is rightly designed to produce entry level young professionals who can work for the prevention of the disease and promotion of disease control strategies.
- The program trains students for evaluating, presenting and researching data related to healthcare management.

- Develop skills in designing, analyzing and evaluating applied healthcare science research and management.
- The emphasis is on practical knowledge, field visits, personalized learning and gives an opportunity for students to participate in basic, translational, interdisciplinary, Healthcare-oriented education and research.
- Gives ample career opportunities as Health care managers, Clinical Research Manager, Healthcare consultant, Nursing Home, Administrators, Health Information Managers, Hospital Marketing, Healthcare analyst etc.

Duration of Course: 3 years (Including Compulsory Summer Internships and field work)

Pattern: Semester system (6 semesters)

Student Intake: 40

4. B. Sc. (Hons.) Biomedical Science

B.Sc. Biomedical Science is a 3-year bachelor degree program that offers students comprehensive skill and knowledge-based learning, keeping in view their employability prospects. This course offers a skill development syllabus having amalgamation of Life Sciences, Biotechnology, Pharmacology, Medicinal Chemistry and relevant subjects to create graduates with enriched knowledge and exposure in the fields of biomedical sciences.

Program Highlights:

- Unique program available at selective institutes only.
- Program is specifically designed to produce middle level young professionals who can work as a link between basic laboratory research and clinical applications
- The program trains students for understanding, analyzing, evaluating, presenting and communicating basics of biomedical sciences and data related to healthcare applications.
- Develop dexterous students equipped with knowledge of biology, biochemistry, pharmacology, biotechnology upto advanced clinical research.

- The emphasis will be laid on practical experimentation-based knowledge, personalized learning and opportunities for participation in basic, transactional, interdisciplinary, biomedical-oriented education and research.
- Gives ample career opportunities as Biomedical Scientist, Healthcare information provider, Biomedical technologist, health sector manager, etc.

Duration of Course: 3 years

Pattern: Semester system (6 semesters) **Student Intake:** 40

5. Bachelor of Pharmacy (Ayurved) (B. Pharm. Ayu.)

School of Pharmaceutical Sciences has started a four-year degree course in B. Pharm. (Ayurved). The program is an integration of Ayurveda and Pharmacy. It is a job-oriented course which will provide technical expertise and acquaint the students with the knowledge and skill for manufacturing and developing Ayurvedic products including drugs, nutraceuticals and cosmeceuticals. DPSRU is the only university in Delhi to start this pharmacy degree program specialized in Ayurveda. With a rapid growth in Ayurvedic industry, in the coming years, a shortage of Ayurvedic drug manufacturers and pharmacists is expected and hence, this program is designed to cater to the needs of the National and International pharmaceutical and healthcare industry.

After completion of the course, the student can work in pharmaceutical industries in various sectors like Ayurvedic formulation department (R&D), Manufacturing unit, Quality control unit, Quality assurance department, Marketing executive, Ayurvedic Drug inspector, and licensed Ayurvedic chemist. There is also scope for entrepreneurship and they can open their own Ayurveda pharmacy store. The student can also work in corporate sectors in jobs like medical writing, pharmacovigilance, clinical trial organizations etc.

- **Duration of the course:** 4 years
- **Pattern:** Semester system (8 Semesters)
- **Student Intake:** 40

6. MBA – Health Care and Hospital Management (MBA-HHM)

MBA in Healthcare and Hospital Management is a 2-year postgraduate program that emphasizes on developing knowledge component, skill and attitude pertaining to Hospital and Health Managers. The broad objective of the program is to develop professional hospital and healthcare administrators with requisite skills in planning, implementation, operational management, problem solving consultancy and entrepreneurship. The syllabus and course content are designed keeping in mind the current requirements of the healthcare and hospital industry.

Program Highlights:

- The program will help the candidates in developing expertise in planning and managing different types of hospitals or healthcare organizations.
- Aims to develop professional hospital and health managers equipped with requisite skills in planning, implementation, operational Management, problem solving, consultancy and entrepreneurship.
- Through this rigorous program, graduates are able to manage hospitals and healthcare organizations globally, both in the public and the private sectors, thus meeting the demand for quality healthcare managers.
- Prepares the students for leadership roles in the hospital and health sector, through training in operational and project management, including orientation in the managerial aspects of clinical and support services.
- The comprehensive program focuses on strengthening the functional skills and deepens the understanding of multi-dimensional Healthcare Organizations with projects, dissertation and field visits.
- It would enhance the decision making and administrative competence of the students to enable them to face challenges of the healthcare industry.
- The degree would open the doors to lucrative careers in Hospitals, Healthcare institutions,

Insurance companies, Consultancies, Medical Tourism, as well as Entrepreneurs and Researchers.

Duration of Course: 2 years

Pattern: Semester system (4 semesters)

Student Intake: 30

7. MBA- International Trade Management

MBA- International Trade Management is a 2 year Post graduate Program designed to equip students with essential management skills with a special focus on international business. The program is designed to develop the resources and capability of managers to work in the global business environment.

Program Highlights:

- The program caters to the managerial needs of National as well as global Industry.
- The Program develops the knowledge, skill and competencies of young professionals to work in the dynamic business arena across the globe.
- The curriculum trains young professionals for decision making positions by providing a deep understanding of outstanding management capabilities in critical business area including National and International business environment, regulatory frameworks, finance, accounting, international economics and marketing.
- Prepares the students to opt for careers across industries as National and International Business Managers, International business consultants, Data Analysts, Global Business Managers, Business Economist and Portfolio Managers. This specialization provides the great opportunity to work in a global market and across the world.

Duration of Course: 2 years

Pattern: Semester system (4 semesters) **Student Intake:** 30

8. Executive M. Pharm. in Drug Regulatory Science:

Objective: The prime aim of this course is to prepare the candidates for pharmaceutical world globally by strengthening regulatory skills along with the knowledge enhancement. It provides an opportunity to the candidates to learn about recent developments in regulatory sciences and its application in pharmaceutical scenario. The programme is the best opportunity for those meritorious candidates who had not been able to complete their masters because of any reason. This would help the candidates to enhance their knowledge by entering the school once again and thereafter serving their organization in a better way.

Course Curriculum

The curriculum for Drug Regulatory Science shall be on the similar lines as defined by Pharmacy Council of India. Theory classes will comprise lectures - both classroom as well as online.

Topic wise highlights:

- Drug Regulations governed by US Food & Drug Administration, European Medicine Agency, and National Competent Authorities of Europe, India, ASEAN region
- Compilation of dossier for submission to Drug Regulatory Agencies. Detailed understanding of various administrative and technical documents pertaining to the same.
- Good Pharmaceutical Practices
- Regulatory Aspects of Food & Nutraceuticals
- Regulatory Aspects of Medical Devices

Duration of course: 2 years or more (depending on the passing of modules by the candidate)

Pattern: Semester system

Student Intake: 20

9. M. Sc. in Artificial Intelligence in Medicine

Master of Science (M.Sc.) in Artificial Intelligence in Medicine will provide training in the principles

of AI in medicine. The emergence of AI Potential to revolutionize the healthcare research industry. It has been reported that global investment in AI start-ups grew from ₹ 1.2 billion in 2010 to ₹ 36.7 billion in 2018. During the COVID-19 crisis, China and the United States have taken a lead in using AI for automated diagnosis, exploring vaccines and treatments, and predicting disease development in society and individuals.

This course aims to train individual in applying concepts of Artificial intelligence in development of pharmaceuticals, diagnostics and precision medicine.

In view of improved understanding of the molecular basis of disease, drug mechanisms and precision medicine in recent past, there is a shortage of qualified persons who are able to translate this knowledge into effective clinical utilization. Hence, this programme has been designed with the aim is to train the future scientists able to fast-track biological and scientific insights into advanced therapies and diagnostic tools.

The MSc course consists of four semesters with subjects varying from basic understanding of AI and Machine learning to understanding genetics and genomic, pharmacology of drug action, precision diagnosis and precision medicine, bioinformatics, drug discovery taught during four semesters. In addition to specialized courses, students have to undertake a research project in the last semester.

After completing the course, a candidate can choose from a range of projects covering areas such as the use of gene expression profiling, proteomics, metabolomics, pharmacogenetics in the biology of diseases such as cancer, cardiovascular disease, infectious diseases, stroke or diabetes. Completing this course will open up a route into Ph.D. research. Students may also pursue a career in academia or the pharmaceutical or biotechnology industries, or as a clinical academic.

Duration of course: 2 years

Pattern: Semester system

Student Intake: 15

10. Master of Physiotherapy

Master of Physiotherapy in Sports Medicine

provides training in complete athletic and sports performance and injury management program, from training to injury prevention as well as recovery and back to sport. In addition to Sports Medicine, MPT in Cardiovascular and Pulmonary and MPT in Paediatrics are also proposed. The Program is directed towards exposure to training in Specialty Clinical fields to enhance professional competence in order to fulfill requirement for Physiotherapy Education and Practice. On completion of the course of study having successfully passed the examination, the candidate would be able to function as a consultant in the respective physiotherapy specialty through knowledge. The candidates may work as a Physiotherapist with various sports teams and sports clubs, Physiotherapists practice in many settings such as Government Hospitals, Defence medical establishments, Private hospitals, ICU set ups, Private Practice, Outpatient clinics, Health and Wellness clinics, in the rehabilitation Department., centers for the differently abled, schools for the mentally retarded and physically disabled children, Health institutions, in Multinational companies, Academics, Research Analyst in Research Centers, Schools and Private homes. They can also practice in non-patient care roles like health, policy, health insurance, and Health care administration and as health care executives. Physiotherapists are also involved in medical legal field serving as expert and performing peer reviews.

Duration of the course: 2 years (6 Semester)
Student Intake: 5

11. DPSRU-AHERF Postgraduate Diploma in Clinical Research (PGDCR)

Apollo Hospitals Educational and Research Foundation (AHERF) spearheads Research, Innovations, and related educational activities for the Apollo Hospitals Group. AHERF is actively involved in clinical, basic, epidemiological, and translational research. It is also India's largest integrated Site Solutions Organization (SSO) which has experience of conducting nearly 700 clinical trials across 14 locations pan-India. Currently, ARI is engaged in exploring and evaluating new therapies, technologies, business models, and evolving similar initiatives to prepare Apollo Hospitals for

the next generation. With more than a decade of experience, clinical research is one of our key strengths. At AHERF, we recognize the shortage of industry-ready clinical research professionals in India and therefore we have developed a set of carefully evaluated programs. Despite a challenging industry scenario, AHERF has witnessed close to 100% placement for its students.

Our Clinical Research is offered at five centres across India namely: Ahmedabad, Chennai, Hyderabad, Kolkata, and New Delhi. We at AHERF firmly believe that through our applied learning and experience on active clinical trials, our courses provide an unmatched capability to our students which enables them to be more prepared for successful clinical research professionals.

Our Strengths:

- Clinical Research Education in Hospital environment
- Highest faculty: student ratio
- Education loan assistance through leading banks
- Every year 100% placement record
- Unique strength has been the internship program in the hospital.

Batch capacity is restricted to 25 students per centre, to maximize quality.

Placement assistance provided to our students and so far, Apollo Research and Innovations has facilitated placements of over 450 students in the industry at leading companies such as Pfizer, Novartis, Johnson & Johnson, Biocon, Apollo Hospitals, TCS, Cognizant, Wipro, Accenture, Parexel, Quintiles, Zymogen etc.

Course Objectives

- To train research professionals and equip them with critical skills needed for the clinical research.
- To promote ethics and values in research in hospitals through Good Clinical and Laboratory Practices (GLP & GCP).
- To collaborate with the pharma industry and provide hands on experience to the students

and researchers and thereby to provide job ready clinical researchers.

12. WCSC-DPSRU

Skill development has been considered one of the critical aspects of job creation in India. The Government of NCT, Delhi has taken initiative for Skill development. DPSRU has started various skill-based certificate course under "Health and Wellness Sector" that might be able to train the people for future job opportunities in their respective sector.

Medicine Management

The Certificate course in Medicine Management for DPSRU-WCSC centre under "Health and Wellness Sector" is the very unique type of course. This program is multidisciplinary and aimed at training candidates for the job of "Medicine Management" it is the link between all healthcare workers as patient, doctor, and medicine experts. This course provides the knowledge and an understanding of what medicines are, what governs their use, legal responsibilities when dealing with medicines for particular disease, Guidance for Medicine's Management and Handling, Safe Administration of Medicines and their Safeguarding.

Beauty Wellness Consultant

The programme is aimed to train the candidates for the job of Beauty Wellness Consultant and develop the building key competencies for excellence in the ever-growing field of Beauty Wellness. This course provides full knowledge about all aspects of Beauty and aesthetics to discover new avenue with the career and professional growth under a creative & modern learning with international standards. Beauty wellness sector Industry is highly dynamic and equipped with a versatile approach. This 1-year intense course training program empowers scientifically in Beauty, make up, Nail Art, Cosmetic Making and Selling Techniques, Management and communication skills. This course delivers Beauty industry knowledge with credentials and recognised for excellent professionals with the highest standards. It sets you apart from the rest, aiding you to excel in your dream career.

Sports Assessment & Yoga Application

The course is designed to provide high-quality education and prepare sports experts to satisfy the needs and expectations of the sports industry through various technological tools. The certificate in Sports Assessment and Yoga Application is designed to make students adopt knowledge and practices to lead a healthy life and promote to maintain healthy practices. They will also be acquainted with the knowledge of basic nutrition and nutrition in sports & exercise with other related aspects important to sportspersons. They will be able to apply this knowledge of nutrition in day-to-day life and in sports and training.

The students will also acquire knowledge and understanding of YOGA, which will make them proficient in the knowledge, skill and practice of yoga along with the tactical efficiency, rules of the game and training related to yoga, officiating and coaching. This knowledge of yoga combined with the sports will give them a new and practical approach to apply yoga in sports.

13. Next Generation Sequencing and Its Applications

The proposed course on Next Generation Sequencing will provide students with a basic understanding of this technology and its varied applications. Students will be introduced to the development of this novel technique as well as learn about the details of a typical workflow, the different methods and applications of NGS with their associated advantages. In addition, students will explore the evolution and advancements in the tools of this technology in order to get a grasp of the changing landscape of NGS and what that means for the future of genomics.

Learning Outcome:

- Review of the genetic concepts required to understand NGS and explore the development of the first generations of DNA sequencing methods
- Explore and understand the motivation and fundamental basis of NGS, the current sequencing technologies alongside their advantages

- Understand the typical workflow of NGS from sample preparation, to making high-quality libraries, to post-sequencing quality control and data management
- Gain familiarity with the major application of NGS which include, among others, transcriptomic analysis by RNA-Seq, genomic variation discovery by Whole Genome Sequencing, and epigenomics analysis
- Insight into the future of NGS with changing landscape of NGS and the rapid evolution of advanced tools

Employability Outcome:

- The students with this certification along with degree will be best fit for diagnostic, biotechnology and pharmaceutical industry. In addition to it, this skill will be helpful to get highly paid jobs in diagnostic labs.
- The usage of NGS technology is rising after Covid pandemic, but skilled people are not available in market. So, more supply of skilled persons is required to fulfil the demand.

Doctor of Philosophy (Ph.D.)

The thrust areas of research at DPSRU include clinical research and pharmacological investigations, development of novel nano-formulations, drug discovery through synthetic chemistry, computer aided drug designing, herbal drug research, analytical method development for pharmaceutical and herbal drugs, quality assurance, regulatory studies for new drugs, biotechnology, physiotherapy, public health and physical education.

DPSRU offers Ph.D. in Pharmacology, Pharmaceutics, Industrial Pharmacy, Drug Regulatory Affairs, Clinical Research, Pharmaceutical Chemistry, Pharmaceutical Analysis, Pharmacognosy and Phytochemistry, Pharmaceutical Biotechnology, Quality Assurance, Pharm. Management, Public Health, Physiotherapy, Cosmeceutics and Sports Science and other allied subjects in the regular mode.

Regulations for Admission and Completion of Ph.D. in DPSRU

The candidates who desire to enrol for the Ph.D.

programme in the University must have Master's degree with at least 60% marks in Pharmaceutical Sciences or Business Studies or Hospital Administration or Physiotherapy or any other allied subject. **Applications for admission in Ph.D. are invited separately through website of DPSRU.**

The Ph. D. candidates are enrolled after successfully passing (minimum qualifying marks are 50%) the pre-Ph.D. entrance examination followed by personal interview. The candidates who have valid JRF/ SRF or have qualified NET / GATE / GPAT / SLET / from the UGC / CSIR / DBT / DST / ASRB or ICGEB / SERB/ DRDO / INMAS or any other statutory body of the Government are exempted from entrance examination. The successful candidates from the entrance examination or qualified otherwise, shall be enrolled as Pre-Ph.D. candidates for the course, after personal interview. During the personal interview, the candidates are required to discuss their research interest/area through a presentation before a duly constituted expert committee. The enrolled candidates will have to seek consent letter from the Ph.D. guides at DPSRU. The number of seats for Ph.D. depends on the availability of the vacancies under supervisor. The registered Ph.D. candidates will then undertake their research work.

The enrolled candidates will have to undergo a pre-Ph.D. course work of one semester duration. At the end of pre-Ph.D. course, a pre-PhD examination will be conducted. The final registration as a Ph. D. candidate will be subject to passing the pre-Ph.D. course exam, submission of the consent letter from the research guide and submission of a write up and presentation of the proposed research work.

During the Ph.D., every candidate is required to show continuous progress of work to the supervisor and submit half yearly report to the DSRC with the approval of supervisor. Further, the progress of Ph.D. research work is monitored by University Research Advisory Committees (URAC). The Ph.D. degree will be awarded to the candidates who regularly present their work to the Doctoral Student and Research Committee (DSRC), have research and review publications in referred journal (as per UGC-CARE list), submit their thesis and successfully defend it in front of the Ph.D. viva committee. After the completion of research work, the supervisor organizes pre-thesis seminar,

to appraise about research work in front of DSRC. If DSRC satisfies with pre-thesis seminar, the report on the pre-thesis seminar is placed in front of URAC for approval. A minimum of 4 DSRC meetings are conducted during Ph.D. The research scholar can submit the thesis within a maximum period of 6 months from the date of submission of pre-thesis synopsis after approval.

The university checks to detect any plagiarism or any other forms of academic misconduct in the submitted thesis. After the submission of thesis, viva- voce examination is conducted to award the degree. The university has a provision to submit soft copy of Ph.D. thesis to UGC within a period of 30 days, for hosting the same on INFLIBNET, accessible to all Institutions / Universities. The candidate has to submit the thesis within a period of five years, but not before two years from the date of his / her registration.

A separate information and notification will be published for the admission in Ph.D.

DPSRU Innovation and Incubation Foundation (DIIF)

DIIF is a BIRAC-BioNEST incubator, funded by Biotechnology Industry Research Assistance Council (BIRAC), Govt of India for a period of three years w.e.f. 2019-20. Under the BioNEST scheme, BIRAC supports bio-incubators in developing research infrastructure, organizing entrepreneurship development workshops and seminars, and maintaining the administrative structure. DIIF committed for enhancing the employability of students of pharmacy.

Vision to create DIIF as an internationally recognized prestigious Indian incubation center in Health Pharma and Wellness sector and mission is to establish an ecosystem of startups that is diverse dense and has momentum.

Our objective is to leverage the demographic dividend of youthful India to spur greater innovation led startups for generating more value to society and economy while boosting global fame of resurgent India by creating globally competitive products and services while co-creating (with helpful government and private support/angel agencies) extensive gainful job opportunities and

exciting career growth opportunities for everyone to sustain long term attractiveness of the planned start-up success culture in NCT Delhi.

Create a culture of entrepreneurship, start-ups and Intellectual Property creation that can lead to value creation, jobs and employment and do social and economic good by providing right context and navigation with help of expert mentorship, industrial collaboration, administrative and infrastructure facilities at the University campus. DIIF, through its extensive network of mentors and advisors from academia, industry and government sectors, provides an unmatched ecosystem for aspiring entrepreneurs and early-stage startups working in healthcare, biotechnology and allied domains, to grow.

DIIF has established an Entrepreneurship Cell (E-Cell) that is led by students of DPSRU and anchored by the leadership at DIIF. The main objective is to foster an entrepreneurial spirit among students and to provide them with the resources, guidance, and support they need to develop their entrepreneurial skills and ideas. This involves organizing workshops, networking events, mentorship programs, and business plan competitions, as well as providing access to funding and other resources.

Certificate courses under DIIF

DIIF conducts Certificate courses with Industry Collaboration. DIIF has partnered with Amarant Life Sciences to create a platform called "E-Pharmy" which is focused on providing high quality education to students and industry professionals in industry relevant courses.

There is no replacement of knowledge & no investment better than Education.

List of certificate courses offered are given below:

- Entrepreneurship and Innovation (9 months including 3 months industrial training)
- Regulatory affairs (6 months)
- Pharmacy practice for healthcare practitioners (6 months)
- Good manufacturing practices (6 months)
- Intellectual property rights (6 months)
- Pharm project management (6 months)

GUIDELINES FOR THE ADMISSION PROCESS

HOW TO APPLY

The admission process is completely online. No offline application form would be available. Candidates shall visit <http://dpsru.edu.in> and apply online to the University for Admission.

Candidates can apply to multiple courses as per their choice and eligibility. The University has made clusters for various courses for the convenience of the applicants. For each cluster a separate application has to be made with application fee of Rs. 1000/- (Rupees one thousand only) through Net Banking / Debit Card / Credit Card etc. on University admission portal. Following table gives the clusters and the Courses / Programs covered in each cluster.

| Cluster No. | Programs |
|------------------------|---|
| For UG Programs | |
| UG1 | D. Pharm, B. Pharm, B. Pharm (Ayu.), BPT |
| UG2 | DMLT, BMLT, BBA-Healthcare, B. Sc. (Hons) Biomedical Science, B. Sc. (Hons.) Sports Science |
| For PG Programs | |
| PG1 | All M. Pharm. Courses |
| PG2 | All MBA Courses (PM, HHM, ITM) |
| PG3 | All MPT Courses (Sports Medicine, Cardiovascular & Pulmonary, Paediatrics) |
| PG4 | M. Sc. Sports Science, M. Sc. (Artificial Intelligence in Medicine) & MPH |
| PG5 | Executive M. Pharm (Drug Regulatory Science) |

Candidate can apply to more than one cluster by paying online separately 1000/- (Rupees one thousand only) for each cluster through same admission portal.

No printout of the form will be required to be sent to the university.

The acknowledgement slip generated online as a proof of payment while submitting the online application form, MUST be retained/saved by the candidate for future reference.

Last Date for applying for UG and PG courses will be as mentioned in "Schedule of Admission".

Application forms for D. Pharm., B. Pharm. B.P.T., B. Pharm. (Ayu.), DMLT, BMLT, BBA, B.Sc. (Hons.) Biomedical Science, M. Pharm., MBA-PM, MBA-ITM, MBA-HHM and MPH, MPT, Executive M. Pharm. in Drug Regulatory Science and M. Sc., in Artificial Intelligence in Medicine courses will be submitted online with scanned copies of Mark Sheets, Date of Birth, Category Certificate and GPAT Score Card (wherever applicable), if any, etc. and NOC from Employer as per Annexure VIII (in case of Executive M. Pharm. only).

Incomplete application forms without scanned copies will not be accepted. At the time of admission/document verification, all the original certificates and undertakings should be brought/ submitted, failing which admission will NOT be given and NO request / relaxation will be entertained in this regard, along with Annexures given in the prospectus (Annexure I to IX). In respect of M. Pharm. and lateral entry students of B. Pharm., there is a mandatory requirement to submit an undertaking for Pharmacist Registration Certificate within one month of admission in respective course as per the Annexure- IV.

Admission will be made strictly according to the merit. The merit will be prepared on the basis of aggregate marks (theory and practical) obtained in the qualifying subject prescribed for admission to the course and subject to the reservations.

PLACEMENT REPORT 2022-23

Strong alliances and record placements again during the session 2022-23 with multiple job offers supported by multinational firms like Dr. Reddys, WNS (Value-edge), Sentiss Pharma, Mu Sigma, SCL, ZS Associates, Course 5 Intelligence etc.

DPSR University has earned the respect of top performers in the industry. The Placement cell, DPSRU stands committed towards getting the best possible opportunities for its students by providing them with a thriving platform and the best exposure. The cell conducts training activities for the final year students mainly focusing on Career planning, Industrial visits, Campus placements and Entrepreneurship Development. Continuous interaction of the cell with the industries also helps in achieving the above goals and motivating students to contribute in this direction. DPSRU continued to enjoy immense confidence from the corporate world as substantiated by the remarkable placement season for the session 2022-23.

The value proposition has strengthened the confidence of the recruiters in DPSRU. During 2022-23, the University witnessed participation of various esteemed organizations offering roles across different domains including formulation development, clinical research, business

analysis, production, quality assurance, research-development, hospital and community pharmacy and sales/marketing.

Placements for our students of 2022-2023 were secured from 20+ companies visiting campus. The companies offered a package ranging from 5 to 13 lakhs per annum for Masters courses, which has significantly increased from last academic year. Moreover, the number of internship and training opportunities with organizations of repute surged as well which raised the number of students getting placed to over 38 so far.

This time, a comparatively higher number of students showed their interest in appearing in campus placements and landed into their dream profiles.
